

2009-10
Scholarship
Recipient

August 1, 2009

My name is Santiago Sanchez Jr. and I am 21 years old, residing in Alamo, TX. This is my first time entering college after about 4 years since I dropped out of high school. I always knew what I wanted to do in life, but I was not aware of how to get there, until recently. I am currently attending TSTC-Harlingen for an Associates Degree in Construction. Before, I never really tried to excel academically to the best of my ability and was always satisfied with just barely passing. However, now my perspective over getting an education is completely different. This summer of 09 is my first semester at TSTC and I am working extremely hard to be the best that I can be and excel beyond the barely passing level. Although, it is a challenge and I do encounter difficulties at times with homework or exams, I never give up and I try my hardest to do everything to the best of my knowledge. My goal is to learn everything I can about my career as well as the other core subjects required in my degree plan. I am truly a hard working, responsible, and ambitious man who wants to get an education that will make me a successful man in life. This is why, I am thankful for the financial aid STASMO provided me with and I greatly appreciate it. It is money that will help me continue pursuing my career and studies at TSTC-Harlingen.

Thank You,

Santiago Sanchez Jr.
